BUSINESS & BANKSY

Banksy knows how to flawlessly catch controversy, hypocrisy and humor all in one image. Even though he paints on canvas as well, he is mostly known for using the walls in the streets as his canvas. He effortlessly manages to put a finger on social sore points. Works like 'Flower thrower' and 'Girl and red balloon' are images that are known around the globe.

With THE ART OF BANKSY BY NIGHT you give your guest the 'once-in-a-lifetime' opportunity to see relevant works of Banksy all gathered at one location, right in the heart of Amsterdam. Wander the street of London, dive into an alley, step into a "secret" bar and discover works of this great artist every corner you turn.

This exclusive experience to many is a surprising night out, out of the box and groundbreaking. And it is, of course, pretty special being able to stay till late in the recently renovated basement of the Beurs van Berlage...
